Sakinah Jamil is an Associate Director specialising in corporate governance advisory, with a strong focus on board effectiveness assessment, board performance improvement, and governance best practices. She supports boards and senior leadership in strengthening oversight effectiveness, decision-making quality, and governance structures to meet regulatory expectations and stakeholder demands.

With a strategic background and experience in national-level roadmap development, she brings a structured, analytical, and forward-looking approach to board diagnostics and governance enhancement. Her work integrates governance frameworks with practical execution, enabling boards to improve performance, accountability, and long-term organisational resilience.
